Motion Computing Software Release Note

Name	**DataGuard v3050**
File Name	**DataGuard_v3050.zip**
Release Date	December 18, 2009
This Version	3.0.5.0
Replaces Version	All previous versions
Intended Users	**Motion J3400, C5, F5, and LE1700 users**
Intended Product	Motion J3400, C5, F5, and LE1700 Tablet PCs ONLY
File Size	452 Kb
Supported Operating System	• Windows XP Tablet Edition 2005*, Version 2002, Service Pack 2 or Service Pack 3 Installed. • Windows Vista, all versions except Windows Vista Home Basic. • Windows 7 * Tablet Edition 2005 is included with the free Service Pack 2 download. If you installed Windows XP Service Pack 2 on a Tablet PC, you now have Tablet Edition 2005.

Fixes in this Release

- Installer will properly install DataGuard driver whether previous driver has been removed or not.

- Issue fixed in previous version of DataGuard 3.0.4.3 that is replaced with this version:

  - This version of DataGuard improves fall prediction and detection while reducing response to normal handling of the tablet, improving overall reliability.

Known Issues and Limitations

- If the previous version of DataGuard was version 3.0.0.0 or older, and this version was un-installed prior to or during the DataGuard 3.0.5.0 installation, then the latest version of the Motion Button Driver must also be installed for DataGuard to perform properly.

Installation and Configuration Instructions

Notes:
- For this new version of DataGuard, the required minimum version of Motion Dashboard is 5.0.2.6.

To install DataGuard 3.0.5.0, perform the following steps:

1. Download the Motion DataGuard v3050 (DataGuard_v3050.zip) to the directory location of your choice.
2. Unzip the file to a location on your local drive. Double-click on the installer (.msi) and follow the prompts.

Licensing

Refer to your applicable end-user licensing agreement for usage terms.
