# **Installation Requirements**

Install baseline 01-01-48-NG-00-A (GMS)

#### **IMPORTANT NOTE:**

- Upgrading to this OS version (01-01-49.00-NG-U20-STD LG patch v20) blocks the downgrade prior to Update005 releases.
- Users updating from 01-01-49-NG-00-A BSP baseline to LG patch v20 will be allowed only to downgrade till Update005, using the Update005 package. The Base OS versions cannot be flashed anymore.

#### **Installation Instructions**

### **Using ADB Sideload**

The installation instructions assume you have ADB installed on your PC (the adb drivers and such) and your MC33x has Developer options enabled and USB debugging ON: Instructions on HOW TO enable ADB is also captured in Integrator guide.

- 1. Connect the MC33x to the PC using the USB data cable or through the cradle.
- 2. You may need to pull down the top menu and if you see "USB for charging", touch it and then change it to "File transfers".
- 3. Open Command Prompt, run "adb devices" and check to see if you are able to see the device's serial number.
  - If yes, proceed to next step
  - If not please get the PC set up with the proper drivers or install an External SD Card.
- 4. You may also get a pop up on your PC (Win 7) that you will be connected as a Portable MediaPlayer. This can be ignored.
- 5. Download Image
  - a. CFE\_ATLAS\_01-01-49.00-NG-U20-STD.zip listed above in content section
  - b. Reset files (Optional)
- 6. Entering into Recovery Mode
  - a. Option 1: In Command Prompt, type "adb reboot recovery" and click enter.
  - b. Option 2:
    - Gun device: Reboot the device and keep the GUN (grip) trigger held.
    - Brick device: Reboot the device and hold both scan triggers on either side of device simultaneously.
      - When Zebra Technologies logo appears on the screen release the trigger
- 7. MC33x will reboot and land up on the Android Recovery screen.
- 8. If applying patch via sideload method
  - a. Use UP and DOWN keys on the keypad to navigate up/down highlight item
  - b. Use ENTER key on the keypad to select menu item "Apply update via adb sideload"

- 9. With your Command Prompt, open, type "adb sideload" and add a space and then drag and drop the patch file on to it and click enter.
  - a. Your PC screen will show files being installed and a little blue horizontal progress bar on your device will show status... And after about 6 minutes (could be 10+ minutes if installing GMS) it should be done and you should be back at the Android Recovery screen.
  - b. Repeat above steps for all mandatory packages
- 10. "Reboot system now" is highlighted. Press the Power Key to Reboot.
- 11. Device reboots and you see Zebra on top and POWERED BY android at the bottom and after about 1 minute will transition to the MC33X splash screen with 5 dancing white dots at bottom... it will stay at this screen for a little over another minute (could be another 7+ minutes if installing GMS) and then you are at the Factory "Welcome" screen.
- 12. If you installed a GMS BSP, you will need to complete the process by setting up Wi-Fi and E-mail accounts and such. If on AOSP (non-GMS), there is no process to follow.
- 13. At the Home Screen, we need to verify that the BSP upgrade took place and set the Date & Time.
  - a. Go to "Settings" and scroll down to "About phone" and look at the "Build number". It should start with "01-01-49.00-NG-U20-STD". Now you are on the correct BSP.
  - b. Setting the Date and Time. If you associate to a WLAN AP, do so now, as it should automatically set the time and date... the only thing left is to set the time zone. Go to "Settings" and scroll to and select "Date & time". Scroll down to and select "Select time zone" and scroll down to and select the appropriate time zone and you are done.
- 14. To Check the Android Patch Level after installing the CFE package in the device,
  - a. Settings->About Phone->SW Components: Device Update Version: 20
  - b. ADB Shell method: Execute following command from PC's command prompt:

    \$ adb shell getprop ro.device.patch.version

    \$ 20
- 15. Now you are all set to use your MC33X.

#### **Using External SD card**

- 1. Plug the MC33X into the USB & Charging Cable and then the Cable to the PC. If you have a Cradle with USB connectivity, you may use that as well.
- 2. You may need to pull down the top menu and if you see "USB for charging", touch it and then change it to "File transfers".
- 3. Download CFE\_ATLAS\_01-01-49.00-NG-U20-STD.zip and drag & drop the file on External SD card
- 4. Entering into Recovery Mode
  - Gun device: Reboot the device and keep the GUN (grip) trigger held.
  - Brick device: Reboot the device and hold both scan triggers on either side of device simultaneously.
    - When Zebra Technologies logo appears on the screen release the trigger
- 5. Your MC33X will reboot and land up on the Android Recovery screen.

- 6. Applying update via External SD card
  - a. Use UP and DOWN keys on the keypad to navigate up/down highlight item
  - b. Use ENTER key on the keypad to select menu item "Apply update from External SDCard"
  - c. Repeat above steps for all mandatory packages
- 7. "Reboot system now" is highlighted. Press the Power Key to Reboot.
- 8. Device reboots and you see Zebra on top and POWERED BY android at the bottom and after about 1 minute will transition to the MC33X splash screen with 5 dancing white dots at bottom... it will stay at this screen for a little over another minute (could be another 7+ minutes if installing GMS) and then you are at the Factory "Welcome" screen.
